## Experience

Grow with Google Africa  
Associate Cloud Computing Engineer  
July 2022 - Present (2 months)  
Lagos, Nigeria

This program aims to engage with existing and aspiring developers to help them build the skills they need to get a job in tech after the program is over. The Google Africa Developer Scholarship (GADS) program gives participants free access to select courses, projects, embedded labs (powered by Qwiklabs) and skill assessments; plus support from the Google Developer community. The resources available in this program will help developers build the skills necessary to get their Google certification. Previous participants have gone on to build impactful projects for their communities, make incredible steps in their career journeys, and even become Google-certified developers and engineers.

Upwork  
Software Programmer (Freelance) at Upwork and Freelancer.com  
May 2022 - Present (4 months)  
Lagos Island, Lagos, Nigeria

I take on projects with minimal complexity and get paid (I.e freelancing), on upwork.com and freelance. Kindly checkout and refer me.

Amazon Web Services (AWS)  
Machine Learning Engineer  
August 2022 - Present (1 month)  
Lagos, Nigeria

AWS and Udacity are collaborating to educate developers of all skill levels on machine learning concepts. We invite learners globally 18 years of age

or older who are interested in expanding their machine learning skills and expertise to enroll in the AWS Machine Learning Engineer Scholarship Program. The goal for this program is to up-level machine learning skills to all, and to cultivate the next generation of ML leaders across the world, with a focus on underrepresented groups. Through its We Power Tech Program, AWS collaborates with professional organizations that are leading initiatives to increase the diversity and talent in technical roles, including organizations like Girls In Tech and the National Society of Black Engineers.

Zuri

Full Stack Software Developer

May 2022 - August 2022 (4 months)
